

A photograph of the USS Laffey (DD-724) docked at Patriots Point Naval & Maritime Museum. The ship is a grey destroyer, with the number 724 visible on its bow. An American flag flies from the bow. A group of people is gathered on the deck, and a blue banner with the ship's name and number is visible on the railing. The background shows a body of water, greenery, and museum buildings under a clear sky.
